A fully-equipped conference hall is hosted within the magnificent fort. The hall is ideal for medium sized conferences, seminars, lectures as well as other events. The conference hall may be set up in a number of different ways according to the needs of the customers.

Fort St. Elmo occupies a strategic position at the tip of the Sceberras peninsula. During the Medieval period, this strategic position was already recognised and exploited. Reference to a permanent watch-post at Santo Eramo can in fact be found in the Militia Roster of 1417. Following a harsh Ottoman razzia in 1551, and various reports indicating a looming Ottoman siege, Grand Master De Homedes issued an order for the immediate erection of a fort. A star-shaped fort was constructed in circa 6 months, by military engineer Pietro Pardo, under the supervision of Knight Fra Leone Strozzi. By 1565 the fort acquired a cavalier, a covertway, a terraille, and a ravelin which was hastily built only a few months before the Great Siege of 1565. Fort St. Elmo also played an important role during World War II.
